

# Presentation, accuracy, timing and control.

We bring high throughput, accuracy, low labour costs and superb product presentation to any end of line requirement with machines and software that complement each other in terms of design, performance and compatibility. We can tailor a system precisely to your needs and reconfigure it if required – all from one proven source, with reduced ordering costs, simplified pre-delivery inspection, installation, commissioning and, of course, extensive after sales support.

One call is all it takes. Call Peter Lydford on +44 1206 849200.

*Winning lines: end of line range*
