

Superb packs. Time after time.

Our highly successful PolyLine system automatically slices and packs cooked meats, bacon, cheese, boneless pork loin or beef in a variety of configurations and formats. It delivers high output combined with high yields and it's easy to operate with minimal and, therefore, hygienic product handling. Low maintenance is designed into the system and, when you need it, our tailored service is there to make sure you produce superb packs on time, all the time.

Don't waste time! Call Martin Baldwin on +44 1603 700755.
