

Junior Slicer

Features and Benefits

- Up to 200 product programmes means fast product changeover.
- All product contact parts are easily removed for fast and thorough cleaning.
- Orbital blade for accurate slicing of delicate products.
- Patented twin jump conveyor option for high speed transfer of sliced groups.
- Fully adjustable jump conveyor for shingle lengths of up to 250mm and stacking heights of up to 75mm.
- Interleaver option for inserting paper or film into products like cheese and cured meats.
- Automatic product gripper optional.
- Robust stainless steel construction.

aew delford
systems

AEW Delford Systems **Junior Slicer** is intended for the user who requires a compact, easy to use machine.

The **Junior** will produce well defined stacks, shingles or shaved products at speeds up to 600 rev/min. It is flexible enough to slice a very wide range of cooked meats, bacon and natural products. It will also slice more fragile products including cheese.

Checkweigher feed back for accurate fixed weight is an option.

The **Junior Slicer** has been designed and engineered for low maintenance and a high level of reliability.

As with all AEW Delford Systems slicers, the **Junior Slicer** is of robust stainless steel construction and has full CE certification.

Integrated Systems

Junior Slicer can operate as a stand alone machine or it can be integrated with a range of manual, fixed or random weight production lines.
